a. Conflicting Activities

(i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. To that end, the Client shall indicate in the **Data Sheet** and make available to all

shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.

The list of debarred firms and individuals is available at the electronic address specified **in the PDS**.

b. Prohibitions

6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible ifso

indicated in Section 5 (Eligible Countries) and:

- (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

e. Borrower Debarment

6.3.5 A firm that is under a sanction of debarment by the Borrower from being awarded a contract is eligible to participate in this procurement, unless the Bank, at the Borrower's request, is satisfied that the debarment; (a) relates to fraud or corruption, and (b) followed a judicial or administrative proceeding that afforded the firm adequate due process.

B. Preparation of Proposals

7. General Considerations

7.1 In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in

providing the information requested in the RFP may result in rejection of the Proposal.

- | | |
|---|---|
| <p>8. Cost of Preparation of Proposal</p> | <p>8.1 The Consultant shall bear all costs associated with the preparation and submission of its Proposal, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Client is not bound to accept any proposal and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultant.</p> |
| <p>9. Language</p> | <p>9.1 The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Client, shall be written in the language(s) specified in the Data Sheet.</p> |
| <p>10. Documents Comprising the Proposal</p> | <p>10.1 The Proposal shall comprise the documents and forms listed in the Data Sheet.</p> <p>10.2 If specified in the Data Sheet, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a contract, the Client country's laws against fraud and corruption (including bribery).</p> <p>10.3 The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal and, if awarded, Contract execution, as requested in the Financial Proposal submission form (Section 4).</p> |
| <p>11. Only One Proposal</p> | <p>11.1 The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the Data Sheet.</p> |
| <p>12. Proposal Validity</p> | <p>12.1 The Data Sheet indicates the period during which the Consultant's Proposal must remain valid after the Proposal submission deadline.</p> <p>12.2 During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the</p> |

total price.

12.3 If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with ITC 5.

**a. Extension of
Validity Period**

12.4 The Client will make its best effort to complete the negotiations and award the contract within the proposal's validity period. However, should the need arise, the Client may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity.

12.5 If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts, except as provided in ITC 12.7.

12.6 The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.

**b. Substitution of
Key Experts at
Validity Extension**

12.7 If any of the Key Experts become unavailable for the extended validity period, the Consultant shall seek to substitute another Key Expert. The Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a substitute Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.

12.8 If the Consultant fails to provide a substitute Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected with the prior Bank's no objection.

c. Sub-Contracting

12.9 The Consultant shall not subcontract the whole of the Services.

**13. Clarification
and
Amendment of
RFP**

13.1 The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for clarification must be sent in writing, or by standard electronic means, to the Client's address indicated in the

Data Sheet. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below:

13.1.1 At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted Consultants and will be binding on them. The shortlisted Consultants shall acknowledge receipt of all amendments in writing.

13.1.2 If the amendment is substantial, the Client may extend the proposal submission deadline to give the shortlisted Consultants reasonable time to take an amendment into account in their Proposals.

13.2 The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.

**14. Preparation of
Proposals
Specific
Considerations**

14.1 While preparing the Proposal, the Consultant must give particular attention to the following:

14.1.1 If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the Client prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member.

14.1.2 The Client may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the Client's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant's own estimates for the same.

18.2 Any attempt by shortlisted Consultants or anyone on behalf of the Consultant to influence improperly the Client in the evaluation of the Proposals or Contract award decisions may result in the rejection of its Proposal and may be subject to the application of prevailing Bank’s

sanctions procedures.

18.3 Notwithstanding the above provisions, from the time of the Proposals' opening to the time of Contract award publication, if a Consultant wishes to contact the Client or the Bank on any matter related to the selection process, it shall do so only in writing.

21. Evaluation of Technical Proposals

21.1 The Client's evaluation committee shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and the RFP, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet**. Each responsive Proposal will be given a technical score. A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP or if it fails to achieve the minimum technical score indicated in the **Data Sheet**.

- 22. Financial Proposals for QBS**
- 22.1 Following the ranking of the Technical Proposals, when the selection is based on quality only (QBS), the top-ranked Consultant is invited to negotiate the Contract.
- 22.2 If Financial Proposals were invited together with the Technical Proposals, only the Financial Proposal of the technically top-ranked Consultant is opened by the Client's evaluation committee. All other Financial Proposals are returned unopened after the Contract negotiations are successfully concluded and the Contract is signed.
- 23. Public Opening of Financial Proposals (for QCBS, FBS, and LCS methods)**
- 23.1 After the technical evaluation is completed and the Bank has issued its no objection (if applicable), the Client shall notify those Consultants whose Proposals were considered non-responsive to the RFP and TOR or did not meet the minimum qualifying technical score, advising them the following:
- (i) their Proposal was not responsive to the RFP and TOR or did not meet the minimum qualifying technical score;
 - (ii) provide information relating to the Consultant's overall technical score, as well as scores obtained for each criterion and sub-criterion;
 - (iii) their Financial Proposals will be returned unopened after completing the selection process and Contract signing; and
 - (iv) notify them of the date, time and location of the public opening of the Financial Proposals and invite them to attend.
- 23.2 The Client shall simultaneously notify in writing those Consultants whose Proposals were considered responsive to the RFP and TOR, and that have achieved the minimum qualifying technical score, advising them the following:
- (i) their Proposal was responsive to the RFP and TOR and met the minimum qualifying technical score;
 - (ii) provide information relating to the Consultant's overall technical score, as well as scores obtained for each criterion and sub-criterion;
 - (iii) their Financial Proposal will be opened at the public opening of Financial Proposals; and

23.5 The Financial Proposals shall be opened publicly by the Client's evaluation committee in the presence of the representatives of the Consultants and anyone else who chooses to attend. Any interested party who wishes to attend this public opening should contact the client as indicated in the **Data Sheet**. Alternatively, a notice of the public opening of Financial Proposals may be published on the Client's website, if available. At the opening, the names of the Consultants, and the overall technical scores, including the break-down by criterion, shall be read aloud. The Financial Proposals will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copies of the record shall be sent to all Consultants who submitted Proposals and to the Bank.

24. Correction of Errors

24.1 Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.

a. Time-Based Contracts

24.1.1 If a Time-Based contract form is included in the RFP, the Client's evaluation committee will (a) correct any computational or arithmetical errors, and (b) adjust the prices if they fail to reflect all inputs included for the respective activities or items included in the Technical Proposal. In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Client's evaluation committee shall correct the quantification indicated in the Financial Proposal

so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.

|--|---|
| <p>b. Lump-Sum Contracts</p> | <p>24.1.2 If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per ITC 25, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price. Where there is a discrepancy between the amount in words and the amount figures, the amount in words shall prevail.</p> |
| <p>25. Taxes</p> | <p>25.1 The Client's evaluation of the Consultant's Financial Proposal shall exclude taxes and duties in the Client's country in accordance with the instructions in the Data Sheet.</p> |
| <p>26. Conversion to Single Currency</p> | <p>26.1 For the evaluation purposes, prices shall be converted to a single currency using the selling rates of exchange, source and date indicated in the Data Sheet.</p> |
| <p>27. Combined Quality and Cost Evaluation</p> | |
| <p>a. Quality and Cost-Based Selection (QCBS)</p> | <p>27.1 In the case of QCBS, the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the Data Sheet. The Consultant with the Most Advantageous Proposal, which is the Proposal that achieves the highest combined technical and financial scores, will be invited for negotiations.</p> |
| <p>b. Fixed-Budget Selection (FBS)</p> | <p>27.2 In the case of FBS, those Proposals that exceed the budget indicated in ITC 14.1.4 of the Data Sheet shall be rejected.</p> <p>27.3 The Client will select the Consultant with the Most Advantageous Proposal, which is the highest-ranked Technical Proposal that does not exceed the budget indicated in the RFP and invite such Consultant to negotiate the Contract.</p> |

c. Least-Cost Selection

27.4 In the case of Least-Cost Selection (LCS), the Client will select the Consultant with the Most Advantageous Proposal, which is the Proposal with the lowest evaluated total price among those Proposals that achieved the minimum qualifying technical score and invite such a Consultant to negotiate the Contract.

a. Availability of Key Experts

28.3 The invited Consultant shall confirm the availability of all Key Experts included in the Proposal as a pre-requisite to the negotiations, or, if applicable, a replacement in accordance with ITC 12. Failure to confirm the Key Experts' availability may result in the rejection of the Consultant's Proposal and the Client proceeding to negotiate the Contract with the next-ranked Consultant.

28.4 Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.

b. Technical Negotiations

28.5 The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the Client's inputs, the special conditions of the Contract, and finalizing the "Description of Services" part of the Contract. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.

c. Financial Negotiations

28.6 The negotiations include the clarification of the Consultant's tax liability in the Client's country and how it should be reflected in the Contract.

28.7 If the selection method included cost as a factor in the

evaluation, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.

28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the Client may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the Bank. The format for (i) providing information on remuneration rates in the case of Quality Based Selection; and (ii) clarifying remuneration rates' structure under this Clause, is provided in Appendix A to the Financial Form FIN-3: Financial Negotiations – Breakdown of Remuneration Rates.

If disagreement persists, the Client shall terminate the negotiations informing the Consultant of the reasons for doing so. After having obtained the Bank's no-objection, the Client will invite the next-ranked Consultant to negotiate a Contract. Once the Client commences negotiations with the next-ranked Consultant, the Client shall not reopen the earlier negotiations.

The Client shall provide a debriefing to all unsuccessful Consultants whose request is received within this deadline.

Appendix A. Financial Negotiations - Breakdown of Remuneration Rates

1. Review of Remuneration Rates

- 1.1. The remuneration rates are made up of salary or a base fee, social costs, overheads, profit, and any premium or allowance that may be paid for assignments away from headquarters or a home office. An attached Sample Form can be used to provide a breakdown of rates.
- 1.2. If the RFP requests submission of a technical proposal only, the Sample Form is used by the selected Consultant to prepare for the negotiations of the Contract. If the RFP requests submission of the financial proposal, the Sample Form shall be completed and attached to the Financial Form-3. Agreed (at the negotiations) breakdown sheets shall form part of the negotiated Contract and included in its Appendix D or C.
- 1.3. At the negotiations the firm shall be prepared to disclose its audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. The Client is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.
- 1.4. Rate details are discussed below:
 - (i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).
 - (ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.
 - (iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.
 - (iv) Cost of Leave. The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:

$$\text{Leave cost as percentage of salary} = \frac{\text{total days leave} \times 100}{[365 - w - ph - v - s]}$$

Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Please note that leave can be considered as a social cost only if the Client is not charged for the leave taken.

- (v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office, support staff, research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Client does not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.
- (vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.
- (vii) Away from Home Office Allowance or Premium or Subsistence Allowances. Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately.

UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

Section 7. Terms of Reference

Terms of Reference (Selection of Consultancy Firm for) Preparation of Integrated Water Transport Strategy for Assam Inland Water Sector under Assam Inland Water Transport Project (AIWTP)

1. Introduction And Background

The development objective of the World Bank funded Assam Inland Water Transport Project is to improve passenger ferry and cargo handling infrastructure and services in Assam as well as institutional capacity for inland water transport in Assam. To promote the objective, it is important to develop a water transport strategy for the Inland Water Transport (IWT) in Assam to help to help water transport get mainstreamed into the overall transport policy and planning for Assam and in doing so be able to draw increased and sustained outlay from the budget.

Twenty National Waterways (NWs) has been declared in North-East Region (NER), out of which the NW-2, operational on the River Brahmaputra between Dhubri (Bangladesh border), and Sadia (Assam), and NW-16 operational on Barak River. This study recognizes the likely direct overlap with any strategy that the central agency (IWAI) might already have for Assam or may be preparing on cargo and tourism potential on the river Brahmaputra (NW 2) and Barak (NW 16) and will aim to avoid any duplication.

2. Objective of the integrated water transport strategy

The objective of preparing this integrated water transport strategy for the State is two-fold:

1. To develop a safe, inclusive, climate resilient and green waterways transport network for improved and efficient passenger and cargo movement in the State and at the same time is mainstreamed into the overall transport policy and planning of Assam. and
2. Help develop green mode of transit as backbone to connect Assam with mainland India and regional markets both for commerce and tourism.

The integrated water transport strategy should ideally consider the following aspects:

- The importance of IWT in Assam for urban transit as well as rural access for a wide section of people
- The importance for it to be integrated with other transport modes.
- The role it can play in heavy lifting high volume cargo in the state, relieving the roads of heavy congestion, wherever possible.
- The role it can play in connecting Assam with mainland India and regional markets both for commerce and tourism.

- The needed focus on investing in building safer and efficient IWT infrastructure, and services/vessels.
- The very important focus on developing human capital (trained waterway managers, port engineers, crew etc.) for a modernized IWT sector.
- The use of digital technologies to enhance safety, promote efficiency and improve user experience.
- Tariff rationalization/strategy - costing frameworks, pricing strategy, service differentiation, etc.
- Short term, mid-term, and long-term investment plan for IWT in Assam, and how these could be funded/potential sources of revenue (both public and private).
- The focus on low carbon footprint, also considering the need for vessels to have lower carbon footprints, be non-polluting and eco-friendly, with no harm to dolphins and other marine mammals.
- The need to provide universal access throughout the year, be socially inclusive for laggard sub-regions, enhance opportunities for small and marginal producers including women, and adopting processes for stakeholder engagement.
- The need for minimizing social risks and enhancing development opportunity for adversely affected particularly poor and vulnerable.
- The need to improve work safety environment for women employees.
- The need to include tourism related aspects to present a profile of the tourist attractions covering relevant aspects.
- The study to assess potential feasibility of water metro services in the inland waterways of Assam specially in and around large urban centers like Guwahati
- The study to gain a deeper understanding of service level and price sensitivity of the customers to the services provided in the IWT sector

3. Scope of Consultancy

- **Task 1:** Carry out a quick, desk based situational analysis of the waterways sector in Assam considering the available secondary data sources and trends in the sector in Assam. Please refer indicative list of studies undertaken under AIWTP The analysis will include the following (indicative):
 - Review and assess growth drivers, direction, and projections of State growth (sectors, locations, connectivity, pre-requisites, workforce, etc.)
 - current demand and historic growth demand pertaining to Cargo and Passenger for Inland Water Transport (IWT) in Assam.
 - Review five-year and ten-year plans of State Transport Dept, State PWD and NHAI including projects under different international development and funding agencies to understand the development goals of different nodal agencies working on various transit modes in the State
 - Review State's climate plan to understand the current level of emissions from Transport sector (including urban transport), future projections in both with and without scenario with an increased focus on transport sector emissions and its recommendations in IWT, Assam. (*incase State level transport emission*

inventory is not available, consultants to prepare a broad level model to assess emissions from different modes including but not limited to road, rail, air and inland water transport of transit for next 20 years for passenger and cargo movement)

- current condition of IWT infrastructure and services in all designated ferry ghats of Assam, IWAI, and GoI including assessing the infrastructure and services from the lens of universal accessibility, safety and security.
- Review the policies and procedures for assessing, planning, implementing and monitoring and reporting on social risk and enhancing development opportunities for all, particularly the poor and vulnerable.
- document details of infrastructures, asset condition, ownership, level of service for both passenger and freight demand/ supply/ utilization etc. for other main transport modes (rail, roads, and air) in the (urban and rural parts of the) State used for local, intra city, inter-city, or regional movement.
- document details of (i) river ports which are significant from the point of view of tourism; (ii) major tourist attractions (NW-2 and NW-16) classified as heritage sites, pilgrimage sites, wildlife sites, adventure sports sites etc. that may be approached from the port on call.
- present the profile of tourist attractions covering the significance of the place, estimated annual tourist inflows (domestic and foreign), status of infrastructure such as road communication from the port of call, telecommunication, medical facilities, restaurant, washrooms, and any other important facilities.
- assess the current condition of IWT from urban and rural connectivity perspectives for all districts of Assam.
- Identify, and review the gaps in the existing and proposed infrastructure and augmentation plans (if any) with respect to the road, rail, bridges, logistics parks, Multi Modal Logistics Parks (MMLP) and logistics terminals which are directly and indirectly related/associated with IWT (both in Assam and cross-border).
- prepare the current scenario of IWT integration with other modes of transport vis-à-vis road and rail, etc.
- Review and prepare the upcoming and proposed plans for the IWT sector considering all terminal infrastructure at various stages by IWAI, AIWTDS, DIWT, Sagarmala Programme and other Central Government Schemes.
- Review the current institutional framework for IWT in the state.
- **Task 2:** Carry out a 20-year macro level travel demand / traffic forecast for cargo and passenger services in Assam IWT (NW-2 and NW-16) and potential for water tourism and intermodal transport including:
 - assess cargo and passenger potential on state, cross border state, national, regional, and international IWT, along with the challenges and bottlenecks.
 - assess potential in water tourism/water sports activities along with the challenges and bottlenecks.

- clearly bring out the existing and future possible scenario of intermodal transport system assessment along with the challenges and bottlenecks.
- assess potential benefits of modal shift, particularly from road to IWT (considering GHG emission and air quality benefits), quantify the benefits and assess the infrastructure improvements (including universal accessibility and safety) that may be required for the user to shift from road to IWT, and therefore of the requirement of integration with other mode of transport. Highlight the limitations of mode shift from user perspective, based on current tariff structure, and service level offered.
- Bring out comparative assessment of operational framework, and costing framework, for both road, rail and IWT services in the State for current and future demand forecast.
- assess the short-term (3 years), mid-term (5 years) and long-term (10 years) investment plan for IWT in Assam, and funding/potential sources of revenue (both public and private).
- **Task 3:** Carry out a benchmarking analysis with national and international IWT system(s) with the aim of drawing lessons and good practices for Assam, including:
 - benchmark the Assam IWT sector with two national and international examples each (to be chosen in discussion with AIWTDS and The World Bank) and suggest the improvements required in terms of organization structure, policy, O&M aspects, infrastructure requirements, IT/Digital technology, and safety.
 - document the key policy, institutional and infrastructure (if any) level interventions undertaken by the state/national level authority to promote use of integrated movement by waterways.
 - clearly bring out the current position of Assam IWT with respect to small, medium, and large size terminals vis-à-vis national and international examples, with clear indicators, outlining look ahead plans for Assam IWT with respect to these terminals.
 - Benchmark and estimate Assam IWT development and carrying capacity of the River (for different vessels using the River including local, regional and cross border) compared to impact on Bio-diversity, flora and fauna on the river ecosystem specially from the perspective of endangered species like Dolphins. This carrying capacity of the river should also be assessed keeping in mind the pollution from vessels (both water and sound), terminal development as well as the induced urban and economic development along the River.
- **Task 4:** High level infrastructure gap assessment with respect to “as is assessment” and “demand forecast” of various clusters/zones, projects, and sub-projects as navigational infrastructure, river and land side infrastructure, river dredging and reclamation, river training, etc. including:

You may request a debriefing in relation to the results of the evaluation of your Proposal. If you decide to request a debriefing your written request must be made within three (3) Business Days of receipt of this Notification of Intention to Award.

Provide the contract name, reference number, name of the Consultant, contact details; and address the request for debriefing as follows:

If we are unable to provide the debriefing within this period, the Standstill Period shall be extended by five (5) Business Days after the date that the debriefing is provided. If this happens, we will notify you and confirm the date that the extended Standstill Period will end.

The debriefing may be in writing, by phone, video conference call or in person. We shall promptly advise you in writing how the debriefing will take place and confirm the date and time.

If the deadline to request a debriefing has expired, you may still request a debriefing. In this case, we will provide the debriefing as soon as practicable, and normally no later than fifteen (15) Business Days from the date of publication of the Contract Award Notice.

[At this point in the procurement process] [Upon receipt of this notification] you may submit a Procurement-related Complaint challenging the decision to award the contract. You do not need to have requested, or received, a debriefing before making this complaint. Your complaint must be submitted within the Standstill Period and received by us before the Standstill Period ends.

Further information:

For more information see the “[Procurement Regulations for IPF Borrowers \(Procurement Regulations\)](#) (Annex III).” You should read these provisions before preparing and submitting your complaint. In addition, the World Bank’s Guidance “[How to make a Procurement-related Complaint](#)” provides a useful explanation of the process, as well as a sample letter of complaint.

In summary, there are four essential requirements:

1. You must be an ‘interested party’. In this case, that means a Consultant who has submitted a Proposal in this selection process, and is the recipient of a Notification of Intention to Award.
2. The complaint can only challenge the decision to award the contract.
3. You must submit the complaint within the deadline stated above.
4. You must include, in your complaint, all of the information required by the Procurement Regulations (as described in Annex III).
